

AGAPANTHUS ECOPANTHUS™ SARAH

KEY FEATURES

- The world's first 'candelabra' type agapanthus
- Being a newly certified Ecopanthus™ variety (certified to produce less than 2% seed set) makes 'Sarah' an excellent environmentally friendly choice
- Produces good sized, full flower heads with each individual flower being held upright, producing a unique candelabra effect
- Pale lilac flowers, with a distinct central darker band and crimped edges on the tepals, are very dainty and feminine
- Use for mass planting on dry banks, garden fillers and coastal areas
- 50-60cm high (flower head) / 30cm x 30cm (foliage)
