

CEANOOTHUS BLUE SAPPHIRE

KEY FEATURES

- New Zealand bred Ceanothus that continues to be a garden favourite after many years
- Forms a large mounding shrub with tightly woven branches, which keeps it compact and tidy
- Dark green foliage over spring and summer intensifies to blackish-green over winter
- Totally smothered in sapphire blue flowers in spring to summer – a magnet for bees!
- Perfect for mass planting and weed-suppressing ground cover
- Low maintenance; frost and wind hardy; drought tolerant
- Best in full sun in average but well-drained soils
- 0.4m x 0.6m
