

# HEUCHERA KASSANDRA

## KEY FEATURES

- Bred in France, this delightful Heuchera is a cross between Heuchera 'Caramel' and Heuchera 'Mocha'
- Large, softly textured, ruffled leaves add stunning texture to garden borders and containers
- Fresh spring foliage is radiant, warm orange and caramel, maturing over summer to chocolate and maroon in autumn
- Slender stems of delicate white flowers are held above the foliage through the summer months
- Best planted in semi-shade to full shade to promote the most intense colours
- Cold hardy, evergreen
- 0.6 x 0.6m
